

Versatile Frontend Developer (m/f)

About us

We are a bunch of passionate developers, miracle workers, and transformers who have one mission: Build METRO's Multi-Channel wholesale business of the future. We closely listen to our customers in order to build and continuously improve applications that cater their specific needs but are still highly scalable.

Together with us you will build great user experience in an international and continuously evolving ecosystem of applications and services.

Joining our team means experiencing a startup-like atmosphere while being part of an international market-leading company in retail. Indeed, METRO GROUP Wholesale & Food Specialist Company operates in 35 countries, serves over 21 million customers and achieved sales of around €37 billion in 2015/2016. Moreover, we are an equal opportunity employer. We offer all qualified employees and applicants identical chances.
