

# Skill Owner Engineering (m/f)

## About us

METRO supplies food for 25 countries. We at METRONOM provide the backbone for this – making sure that everyone gets their food on the table. ;)

METRONOM is responsible for the framework behind the delivery right to the customers' doorstep. We design, implement, test, continuously deploy and run hundreds of micro services and digital solutions driving our business from sourcing up to checkout or delivery.

How do we do it? Our agile product teams are the ones choosing the technologies and working methods, allowing for fast decisions and reactions to customer needs.

## Join us

Joining our team means working in a startup-like atmosphere while being part of an international market-leading specialist in wholesale and food retail.

If you want to set the pace of food and technology, get in touch with us:

## What you can expect

- You are leading and developing a skill team of full stack developers working in different product teams.
- You hire new developers, empower your team to work in a self-organized way, and promote METRONOM at various events.
- You give personal feedback and support the education and individual growth of your team members.
- An agile development environment with pair programming, code reviews, and continuous deployment.
- A high working quality, ensured by extensive test automation, and a flexible use of innovative technologies.
- A constant exchange of knowledge within your team, with our managers, and external partners.
- An international work environment with colleagues from all over the world.

## Your profile

- You love to empower and motivate people, foster strategic thinking, and to guide through change processes.
- You have very strong coaching, moderating, and networking skills.
- You have a strong background in software engineering and an agile mindset.
- You are familiar with HR programs and organizational principles.
- You can budget people related costs.

## Benefits

Permanent employment • In-house workplace and an international work environment • High personal responsibilities • Flexible working-time models • Remote / home working supported • Preventive healthcare services • Good infrastructure (free parking spaces, various nearby shopping facilities) • Latest technologies • Exciting projects

METRONOM is an equal opportunity employer. We do not discriminate against any qualified employees or applicants.
